Objective D: Weapons and Drugs

Third Quarter Report: 2011-2012 School Year

Executive Summary

In accordance with Strategic Objective 3D, the district is to reduce the number of Weapons and Drugs on school campuses as measured by official police reports to 45 or less in each category by FY 2014. For the period of January 1, 2012 through March 31, 2012 there have been 51 incidents involving drug violations and 15 involving weapons violations. With an emphasis on Strategic Objective 3D, we are ensuring that a minimum of 3 Random Administrative Inspections are done per school every week. There has been a decrease in weapons as compared to the second quarter of FY2011, but there has been an increase in drug violations. Campus Police has set an action plan related to these increases that specifically deal with the schools that are experiencing the rise in violations to include more frequent searches, involvement of our law enforcement partners and more pro-active interaction between our officers and the students and families at these sites.
