[Find the Peacock!](#)

Art

Artist: John James Audubon

Audubon was an artist and naturalist. He created many drawings and paintings of birds while observing them in nature. Make a pair of binoculars with tissue rolls. Go outside to look for birds. Observe their colors, feathers, beak, wings, head and legs. Draw or paint one of the birds you see.

Tech

Practice clicking and dragging with a mouse, trackpad, or even a tablet as you put this [Goose Puzzle](#) together. Try both green levels and maybe even the blue level if solving puzzles is a favorite activity!

Music

Listen to "Spring" from [The Four Seasons](#) by Vivaldi

Listening Map:

Dance around like a bird or create your own movements to the music.

STEAM

Most birds create nests with what's in their environment using different materials. Why do birds build nests?

Build a nest (big or small) for a bird (real or imaginary) with the materials around you. What kind of nest did you build? Is it soft? Is it hard?
