

**\*Students first grade will be to get this signed and their parent/guardian join  
Remind 101\***

**Instructor:** Miss Blair Fine

**Course overview:** Life Science explores the development, classification, and interaction between organisms. This course includes units on cells, the structure and functions of organs, classification and diversity, genetics and heredity, organisms and their environments, human health and reproduction, and change over time

**Contact:** email: [olivia.fine@sccpss.com](mailto:olivia.fine@sccpss.com) telephone: (912) 395-3950

**Give to our classroom:** To give to our class for lab supplies and class materials:

<https://www.donorschoose.org/B.Fine> or

[https://www.amazon.com/hz/wishlist/ls/2CPZ59DJ0K9CQ?ref\\_=wl\\_share](https://www.amazon.com/hz/wishlist/ls/2CPZ59DJ0K9CQ?ref_=wl_share)

**Remind 101: Text @20cmsv to 81010** (You will receive a welcome text from Remind)

This allows for quick communication sent via phone with updates, homework, tests, etc. Reply back with your students first and last name .

**Discipline:** My goal is to build a strong, supportive relationship with your child. I will structure my classroom so that each child may experience success. My intention is to address any minor misconduct that may arise quickly and effectively with the student. Should misconduct escalate or continue, the following will occur:

- A. Verbal Warning
- B. Minor Incident Referral + Parent Contact
  - a. 1st: Learning Lunch
  - b. 2nd: Learning Lunch + Team Conference with Student
  - c. 3rd: Detention
- C. Administrative Referral

**Make-up Work:** Students should request missed work upon returning to class and have **5 days** to submit all assignments missed during an absence.

*Please see CMS Late Work Policy in the handbook.*

**Grading:** 60% Assessments: Tests, Projects, Quizzes

40% Daily: Daily work, Homework

**Science Fair:** All students in 7th grade are REQUIRED to complete a science fair project. Their project will be worth two test grades (2nd and 3rd quarter). Please begin thinking about possible topics to explore. The students will be encouraged to attend the school science fair after school in February. More details soon.

**Tutorials: Wednesday 3:00- 4:00 pm**

**My parent/ guardian and I (the student) have read and understand the information provided in the Life Science syllabus and will adhere to following the instructions and expectations of Ms. Fine for this 7<sup>th</sup> grade year.**
