

Resources to Keep Students Engaged During School Closure

****This Is Not Mandatory****

While the safety of our students and their families is our first priority, if you are looking for some great resources to keep your student engaged, here are some of our favorite Free Online Resources:

Grades K-12

<https://www.mobymax.com/signin>

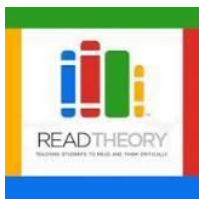

(Students can log in by selecting their school, then using their school username and password)

** If a student does not know their Moby Max username and password, a parent can set up a free account using this link: <https://www.mobymax.com/> and select resources for the student's grade level.

<https://www.khanacademy.org/>

Khan Academy offers multiple subjects from Math to Science & Engineering. Accounts are free and students can access all subjects within their specific grade level.

<https://readtheory.org/auth/login>

(Students can log in with their school username and password)

** If a student does not know their Read Theory username and password, a student/parent can set up a free account using this link: <https://readtheory.org/welcome/register>.

How about some keyboarding practice? Try these free sites:
