

An Important Support Update from Compass Learning®: Odyssey Now Accessible on Mobile Devices!

We are pleased to announce that Compass Learning Odyssey® is now accessible from virtually any mobile device, including iPad/iOS and Android.

In order to access Odyssey content from your mobile device:

- 1.** Go to the App Store for your mobile device and find Puffin Academy by CloudMosa.
- 2.** Download the Puffin Academy App (not the Puffin Web browser, also by CloudMosa).
- 3.** Open the Puffin Academy App.
- 4.** Find the Compass Learning icon and click it. A simple search for “compass learning” will bring you to Odyssey.
- 5.** Click the Compass Learning logo, then click the logo again, and you will be redirected to the Odyssey login screen.
- 6.** Log in as you normally would and begin using Compass Learning Odyssey.

**Note: Odyssey on mobile devices is only available for customers using our hosted solution. If you are using the enterprise model and would like to explore moving to the hosted model, please contact an Account Manager at 1-800-428-8604. If you are uncertain whether your school is on the hosted or enterprise version of Compass Learning Odyssey, you can determine by simply looking at your login URL. If it is www.thelearningodyssey.com, you are using the hosted version and can access Odyssey via iOS and Android devices. If you access Odyssey via any other URL, you are using the enterprise version.*

We hope you enjoy the flexibility of accessing Compass Learning Odyssey from your mobile devices. Please visit our support community at <https://compasslearning.secure.force.com/CustomerSupport/> for questions and further information regarding this exciting announcement.
